

The Ace Contractors Group of Companies will seek to meet or exceed the environmental expectations of our customers and the community and ensure compliance with AZ/NZS ISO 14001:2004 Environmental Management Systems.

Our diverse range of construction and waste management activities are planned and conducted in a manner that minimises the effects on the natural environment and is consistent with the principles of sustainable development.

We will:

- Monitor, review and continually improve our environmental performance
- Comply with all applicable environmental regulations and legislative requirements
- Act to prevent pollution of the natural environment
- Continuously focus on recycling and waste minimization
- Ensuring the continued development and implementation of an environmental management system
- Educate employees, ensuring they are aware of their responsibilities under this policy
- Provide training and resources to employees to safely fulfill their environmental responsibilities
- Establish clear environmental objectives for each project
- Giving preference to suppliers with proven environmental credentials
- Promote a culture of responsible environmental management
